

ILLUSIONS COLLECTION

Product Details

- Illusions Glass is a low temperature – coated glass tile with a double layered back paint. However, unlike most mirror backed glass tile, Illusions Glass can be successfully installed in intermittent wet locations such as tub or shower walls including steam shower walls.
- Due to the uniqueness of each piece of Illusions Glass, it's recommended to blend the entire order before or during installation for a balanced and visually consistent result.
- Install per *TCNA Handbook for Ceramic, Glass, and Stone Tile Installation* and the Island Stone installation instructions available at IslandStone.com.
- Illusions Glass does not need to be sealed.
- The minimum grout joint requirement for Illusions Glass is 1/16". Illusions Glass should never be installed without a grout joint.
- Illusions Glass can be readily cut with either a score and snap tool or a wet saw equipped with a continuous rim diamond blade made for cutting glass tile. Do not dry cut Illusions Glass with a power tool.
- Clean with a pH neutral tile cleaner or an alkaline based tile cleaner. Harsh abrasive or acidic cleaners should be avoided.

Available Colors

Afterglow

Radiance

SUGGESTED USAGE

Interior Wall

Kitchen Backsplash

Fireplace Wall
(Not in Firebox)

Shower Wall

Steam Shower Wall
