NOTES

Since variations are common in artistic glass tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. On dimensional patterns, using a grout bag is the best method to target competent and successful grout application. Grout floats should not be used due to the luster glaze. please take care when grouting and protect surface from abrasion. **Installation constitutes acceptance**. We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).

MAINTENANCE

A routine cleaning of **Textile** tile can be done with a light duty non-abrasive, close to neutral pH detergent cleaner.
