NEURO-ONCOLOGY

Treatment for cancerous tumors of the brain and spine may include surgery, radiation therapy, chemotherapy, immunotherapy, hormone therapy, or targeted therapies. Care is coordinated through a comprehensive treatment plan developed in collaboration with oncology specialists. As part of Karmanos Cancer Institute, a member of McLaren Health Care and one of the nation's leading cancer centers recognized by the National Cancer Institute, patients in Lapeer have access to advanced treatment options and a broader range of clinical trials through the Karmanos network.

WE WELCOME YOUR REFERRAL

Send referrals directly through Cerner or fill out referral form online at mclaren.org/lapeer. Please include any of the following:

- Office visit notes (pertaining to the reason for referral, including all histories and medications).
- Current advanced imaging (within the last year) of the affected area.
- Current patient demographics.
- Any prior authorizations needed.
