MCLAREN BIRTHING CLASSES

Expectant parents have the unique opportunity to participate in McLaren Greater Lansing's labor support class, held at The Birthplace, our labor and delivery unit at the hospital. This one-day course is led by our nurses from The Birthplace and gives an exclusive perspective where patients learn more about the birthing process at McLaren along with receiving a tour of the facility to better prepare them for the big day.

The class includes a full range of preparation and techniques of laboring and post-labor care including:

- The labor process
- Hospital admission process, labor positioning, and comfort and pain control techniques
- Delivery and postpartum care

The class is currently being offered to those who will be delivering at McLaren Greater Lansing's Birthplace and are in their third trimester (after 32 weeks) and their partners. Your patients can register online at mclaren.org/lansingbirthclass.

MIDWIFERY

Midwifery is a family-centered childbirth option available for your patients at McLaren Greater Lansing. A certified nurse midwife is educated in two disciplines: nursing and midwifery. Midwives serve as mentors and caregivers for women seeking active participation in the "normal, healthy process" of pregnancy and birth.

McLaren nurse midwives, Sameerah Shareef and Casey Claussen, are here to support your patients and their journey through family planning, childbirth, and beyond.
