

MEET McLAREN

GENERAL SURGERY

At McLaren Flint, our general surgeons are trained to diagnose and treat a wide range of abdominal conditions, including both common and complex issues. We also offer additional specialty surgical services. We are here to provide excellent care throughout each assessment, surgery, and post-operative recovery phase. Our general surgery team combines its knowledge of a wide range of specialties, working alongside a team of highly experienced and trained staff, including anesthesiologists, operating room nurses, and technicians, to help patients recover and return to health.
