POCT02-A

Implementation Guide of POCT01 for Health Care Providers; Approved Guideline

This document identifies and describes the particular features that a POCT01-compliant device should ideally have. These features are divided into obligatory and desirable categories. The guideline thus gives the health care provider or end user a practical basis for establishing a list of features or questions to be addressed by the vendor of a compliant device.

A guideline for global application developed through the Clinical and Laboratory Standards Institute consensus process.
