

# Focus on the people

People focus is **enabled** by default, dynamically adjusting the layout for an enhanced meeting experience.

## Clearer meetings start here

People focus uses AI to dynamically crop individual participant videos so that they're easier to see and interact with, eliminating empty backgrounds and making people the focal point.

See for yourself

People focus **OFF**

People focus **ON**

People focus is a Webex Meetings feature that is available on cloud and cloud-aware (Webex optimized) devices.
