

Brainstorm your way to outstanding results

Make your brainstorming sessions more effective and help your team quickly reach a group decision. With Slido, you can ask team members to submit their ideas before the meeting and save time for the face-to-face discussion. Once in the meeting, avoid a conformity trap, take the pressure off, and let everyone express their opinions anonymously.

Make it happen

- Go to <https://www.slido.com> to log in with your Webex username and password
- Access the [event settings](#), click features, and [enable ideas](#)
- If you want to collect ideas before the meeting, share the [permanent link](#) with your attendees
- During the meeting, go to **Apps** and select **Slido** to find your prepared Slido
- Ask people to [review and upvote](#) the best ideas, then have a conversation about the submissions
- After the meeting, download and analyze your results by going to [slido.com analytics](#) and clicking [export](#)

[Learn more](#)

Inspiration corner

- Allow your team some quiet time to collect their thoughts before you ask them to post their ideas
- Split your team into smaller groups, let them discuss ideas together, and then submit them
- Once everyone contributed, go through all the submitted ideas together
- Ask people to upvote the ones they like and encourage a discussion around the most popular

Brainstorming topics examples

- Which topics should we discuss during the meeting?
- What is the main obstacle that is preventing us from reaching our goals?
- What do we need to start doing to build the culture we want?
