

Easily manage multiple lines in Webex App

See it all in one place with the multi-call window. Here's how.

First, open it up

The multi-call window is your home for multiple-line management in Webex App. Click your profile picture, go to **Settings > Calling**, check **Show Multi Call window**, and click **Save**.

Next, see what it can do

You can place a call on hold to answer another, transfer, start a conference call, and much more—all from the multi-call window. Check out how to:

- [Mute](#)
- [Hold](#)
- [Park](#)
- [Transfer](#)
- [Share your screen](#)
- [Conference call](#)
- [Barge in](#)
- [Record](#)
